I. JOB TITLE : LIFT AND ESCALATOR MECHANIC

II. JOB LEVEL : SKILLED WORKER

III. JOB DESCRIPTION : Installs, adjusts, maintains and repairs various types of lifts and escalators.

IV. TRADE SKILLS : Ability to:

- 1. Correctly use and maintain the tools of the trade including power tools, alignment and measuring instruments, and test equipment.
- 2. Install, adjust, maintain, locate and repair faults in lifts and escalators, and carry out modifications according to instructions.
- 3. Use electric and gas welding equipment.
- 4. Use approved mechanical handling and lifting equipment.
- 5. Test lift and escalator safety equipment.
- 6. Climb ladder and scaffolding.
- 7. Read and interpret relevant electrical, mechanical and building drawings.
- 8. Locate and repair faults in lift and escalator systems and equipment.
- 9. Use safety equipment, and protective devices and equipment.
- 10. Correctly instruct, supervise and transfer skills to any apprentice or semi-skilled worker assigned to him to ensure safety and quality of work.

V. TRADE THEORY : Knowledge of:

- 1. Type of drives and their applications.
- 2. Rotating machines and motor control circuits.
- 3. Line diagrams and layout drawings for lift and escalator systems.

- 4. Basic workshop practice and simple calculations.
- 5. Steel wire ropes and chains, their constructions, materials, tensioning, fastenings and maintenance.
- 6. Escalator step drive mechanisms.
- 7. Lift door operating and interlocking systems.
- 8. Mechanical and electrical safety equipment of lifts and escalators.
- 9. Cars, counter-weights and guides, and lubricants used for bearings, bushes, gears, guides and ropes.
- 10. Basic mechanics including slings, derricks, winches and shearlegs, variation of load with angle, factors of safety, centre of gravity, equilibrium and friction.
- 11. Insulation against noise and vibration.
- 12. Industrial hazards, safety and health precautions, energy saving and environmental concerns.
- 13. Installations practice and regulations, and relevant codes of practice.
- 14. Relevant ordinances and regulations.

VI. ENTRY ROUTE

: Preferred Minimum Entry Qualification:

Completion of Secondary 3.

Training:

4-year organized apprenticeship or 3-year organized apprenticeship if preceded by a relevant one-year full-time basic craft course, with attendance at a relevant part-time day-release or block-release craft course in an institute of vocational education or equivalent.

VII. STATUTORY REQUIREMENT

: A qualified lift and escalator mechanic should at the same time be registered as a lift mechanic and an escalator mechanic under the Lifts and Escalators (Safety) Ordinance.
